

Paypool Accounts Payable solution

AP Automation Your Way

End-to-end accounts payable automation streamlines AP, from invoices to approvals to payment, with full transparency every step of the way. You'll spend less time on manual, time-consuming tasks and more time adding value to your organization.

Why Automation?

Manual, paper-based accounts payable processes are inefficient and cumbersome. Without automation, processing invoices and paying bills is a resource-intensive process, with a lack of controls and transparency for staff members and senior leadership alike.

Automation makes accounts payable *simple*.

Automation eliminates manual process and inefficiencies from your accounts payable process. Paypool's solution provides the ability to code, approve and pay invoices from a single online system.

Why Paypool?

Benefits

- + Conforms to Your Organization**
Approval processes and authority are clear and well defined.
- + Strategic**
Frees you and your staff from mundane tasks, giving you more time to focus on business strategies.
