Level 3 Rates

Level 3 processing allows you to receive discounted rates on Visa and MasterCard B2B transactions. The average small to mid-sized business **saves \$18,000 per year** by providing the comprehensive level 3 data requirements. APS Payments Acumatica integrations will automatically send the required data for you, to ensure quick payments at lower costs.

EMV

If you have card-present transactions, you should ask if APS Payments can provide your business with a fully integrated EMV credit card terminal. This will eliminate the need for double entry, lower chargeback risk, and lower transaction fees. Prevent counterfeit chargebacks!
