

Smarter business payments and expense reconciliation with **BILL + Acumatica**

Close books faster than ever. BILL integrates with Acumatica to automate payments and streamline expense reconciliation, giving your team smarter workflows, faster results, and accurate data you can always rely on.

Benefits of BILL

Easy to use

Capture, code, review, and process invoices and card expenses, all on one intuitive platform.

Faster close

Save hours at month-end with pre-coded transactions and complete payment data synced daily.

Payment control

Send domestic and international payments from one place. BILL handles it all and shows you exactly when funds will arrive.

Always in sync

Keep chart or accounts, vendors, bills, and transactions aligned between BILL and Acumatica and avoid double entry.

Accurate billing & expense reconciliation

Everything syncs automatically with Acumatica and lands in the right account. So books stay clean with less rework.

Complete visibility

Get a clear view of every approval, change, payment, and supporting document across AP and expenses.

Key **integration** features

Two-way sync

Enjoy seamless bi-directional syncing of chart of accounts, vendors, and bills to keep systems perfectly aligned.

Custom GL field matching

Pull in Branches, Subaccounts, Projects, Items, Payment Terms, vendors, and more from Acumatica so every bill and expense is mapped accurately from the start.

Pre-coded transactions

Bills, vendor credits, receipts, and card transactions sync into Acumatica with the correct coding, reducing manual work and speeding up reconciliation across AP and expenses.

Automated reconciliation

Transactions sync daily (or anytime with a single click) for faster, more accurate month-end close.

BILL brings AP and expense management together in one seamless integration.

Keep your workflows running smoothly, from invoice intake or card swipe to approval, payment, and close.

Save your team time and energy with BILL + Acumatica.
