Recent Customer Success

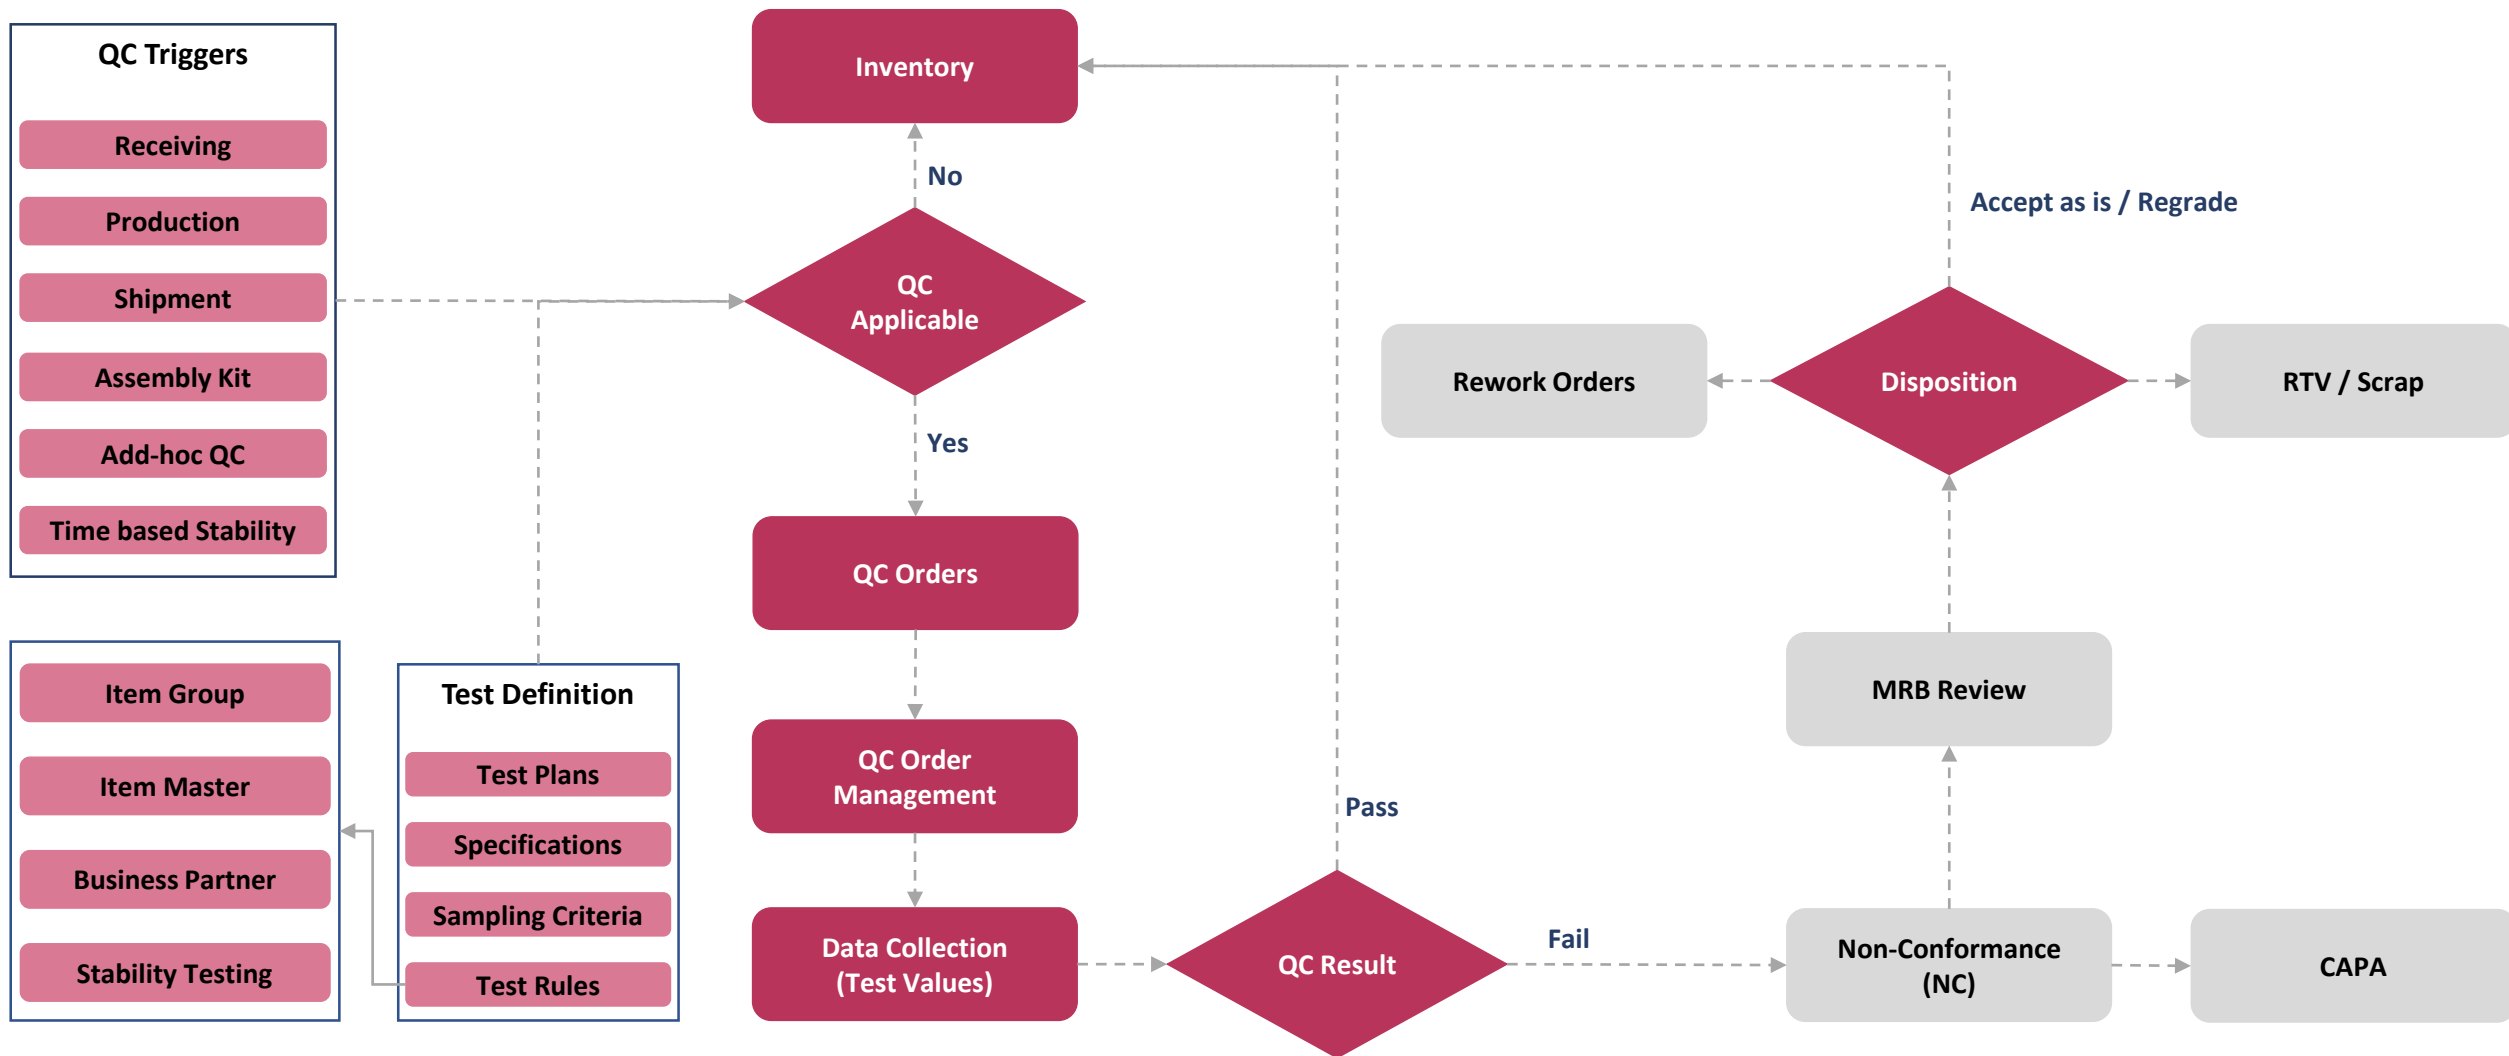

“Having a robust quality management system that works effectively across all our SKUs and can be managed all in one place, and provides a massively beneficial lot recall report, is an imperative for any growing company like ours. eWorkplace App’s Quality Management Suite for Acumatica will be the backbone of our quality program.”

“Seamless integration is an imperative. It makes it so all inventory movements are traceable, quality inputs happen at every process level and are documented. You can’t do that on spreadsheets and with inventory tracking alone.”

-- Adam Lappe, Quality Manager, Lakanto Foods USA

Quality Management – High Level Flow
