Why QMS?

Streamline and
systematize **internal
quality needs**

Fully **integrate Quality
Management** with every
facet of your business

Meet **customer
requirements** and
satisfaction

Meet industry,
regulatory, and
**compliance
requirements**

Internal Quality Needs

Set testing standards, record results, and evaluate for material

Quarantine material and gate operations

Setup a formal non-conformance corrective and preventative actions process

Get control over ERP foundation such as receiving with inspections and checklist

Get an analysis of vendor quality performance

Integrated Quality Management

Integrate	Fully integrate quality management with accounting, purchasing, manufacturing, distribution, shipping, etc.
Automate	Automate workflows, tasks, and alerts across departments
Simplify	Have all employees work off a single database / source of truth
Eliminate	Eliminate manual data entry, spreadsheets, and multiple data sources

Customer Requirements

Provide CoA and related documentation

Validate testing / inspection needed during shipping

Gain control over customer initiated quality issues (NC)

Industry and Regulatory Requirements

1

Report on recall /
traceability

2

Get a digital record of
test results

3

Get digital records of
the NC and CAPA
process

Industry-Specific Compliance Requirements

Manufacturing / Distribution

- ISO 9001 (2000, 2008, 2015)

Aerospace

- AS9100 rec C/D

Food & Beverage

- HACCP, ISO 22000, SQF 2000

Automotive

- ISO / TS 16949

Medical & Life Sciences

- ISO 13485, FDA 21 CFR Part 11 / Part 820

Oil, Gas, Chemical

- ISO / TS 29001

Quality Management Suite for Acumatica

Natively Built within Acumatica:

- Developed using Acumatica toolset
- Same Acumatica database
- Fully integrated with Acumatica ERP

Quality Management Suite for Acumatica			
Testing (receiving, production, shipping, ad hoc, stability)	Checklists and Inspections	NC and CAPA	AQL and Sampling
Vendor Performance	Tool Details	Certificate of Analysis (COA)	Reporting and Analytics
Manufacturing Industry Edition		Distribution Industry Edition	
Acumatica Cloud xRP Platform

- Stability testing – 22Q4

Acumatica Future Releases

Acumatica Future Releases

- Health and Safety Management
- Vendor Qualification/Scorecard (Supplier Management)
- Training and Skills Management
- QC for Sample Management

Customer Testimonials

Since 1972, Trace Mineral's branded products have been recognized around the world as a pioneer of ionic trace mineral products that have supported consumers in living healthy lives.

“Trace’s implementation of eWorkplace Apps integrated process and quality management solution into its current Acumatica accounting and distribution systems will provide Trace with a complete ERP system that will allow it to continue to meet and surpass its goals in manufacturing and quality. This will be accomplished by using a quality system to quarantine and test items throughout the receiving, production and shipping process and ensure tight control of production via a formula module that supports both powder and liquid formulas and bill of materials that supports multiple pack sizes.”

-- Kelly Jones, Director of Quality and Purchasing, Trace Minerals

Customer Testimonials

Since 1985, Dutchland, Inc has been an innovative leader in producing precast prestressed concrete environmental structures.

“The use of eWorkplace Apps Quality Management solution, built within Acumatica’s manufacturing system will provide Dutchland with a defined, controlled, and documented process to test and evaluate products during the production process to ensure each pour meets defined specification and shipped to its customers.”

-- Brad Tekely, Director of Operations, Dutchland Incorporated

Customer Testimonials

Sun Ten founder Dr. Hong-yen Hsu was recognized as the “Father of Scientific Chinese Herbal Extraction” and over the last 70 years Sun Ten has grown into a pharmaceutical grade manufacture with facilities and exports to more than 20 countries including United States, England, Canada, Japan, Malaysia, Singapore, Australia, and Switzerland.

“Sun Ten’s acquisition and implementation of Acumatica and eWorkplace Apps integrated process and quality management solution with its ability to control both powder and liquid formula’s, handle multiple pack sizes and control the production of our products along with the ability to quarantine and test products will provide us an ERP solution that help ensure we meet our goals in the areas of safety, quality, efficacy, and consistency.”

-- Jeff Hsu, eCommerce Supervisor, Sun Ten Laboratories

Quality Management Suite for Acumatica

eWorkplace Apps, LLC

The Quality Management Suite (QMS) is natively built within Acumatica and plays a key role in helping distributors and manufacturers:

- Support and streamline internal quality needs and processes
- Meet customer requirements and improve customer satisfaction
- Meet industry, regulatory, and compliance requirements

It does this by supporting:

- Testing of items during receiving, production, and shipping
- Inspections related to activities such as receiving a truck and starting a production line
- Forward and backward tracing of all movements of a serial / lot number
- Non-conformance (NCR) and corrective and preventive action (CAPA) processes
