FRAXION

Proactive spend management

A complete true cloud spend management solution for purchasing, procurement efficiency, expense control and spend analysis.

Prime 

A powerful all-in-one spend management suite

Are your processes complex,
manual or paper-based?

Are you overspending due to a
lack of visibility and control over
employee and business spend?

Is your approach to expenditure
reactive rather than proactive?

Fraxion can automate and simplify these challenges, change spending behavior and enable sustainable cost savings.

Fraxion's cloud solution is as feature-rich as it is intuitive - don't compromise on functionality or simplicity, choose Fraxion's turnkey cloud solutions – integrating mobility, a modern UI and a full spend management suite for complete operational spend control and analysis.

Simplicity

"I would definitely recommend Fraxion to anyone who has a very manual, time consuming procurement system. You'll really appreciate the **user friendliness**, the **quick learning curve** and the features. You'll **simplify** your workflow and have a history of all your transactions on your system."

Requisition-to-PO, advanced approval routing and invoice matching

Accelerate your processes and take the risk out of your approvals. Integrated with your ERP/accounting system or standalone, Fraxion provides spend control, policy compliance, visibility and efficiency throughout the procure-to-pay workflow.

“Fraxion gives me more **transparency**, so I can see everything I need to see. I don’t have to check up on people. It definitely gives me a lot more time to do other things that I should be doing and allows me a level of peace of mind that the system is doing what it needs to do. I don’t have to rely on people to be amazing because the system is.”
