

Online Forms – modern and professional

Fill out and share forms online from computers. Leveraging the GoFormz Public Forms feature, links to your online forms can be easily shared directly with contacts or posted to a website, for anyone to fill out, and submit – drastically improving accessibility and eliminating the need for the scanning, faxing, or hand-delivery of

Public Forms:

Simplify the completion, collection, and processing of forms completed by customers, collaborators, subcontractors, and other individuals outside of your organization, with the Public Forms feature. You can even configure what form fields should be made editable, add expiration dates, and track submissions, all from your GoFormz account!

“I can’t stress enough how many new opportunities the use of Public Forms has opened up for us.”

– Bradley Faircloth, IT Asset Management, Prestage Farms

Collect better data:

- » Streamline onboarding with online forms that look exactly like your existing forms
- » Forms can also be filled out in the GoFormz mobile app – even while offline!
- » Route your online forms to teammates and customers using custom triggers and business logic
- » Easily share links to your online forms with anyone to be filled out and completed
