

# SUCCESS WITH SAVANT WMS and Acumatica

## Scalable WMS Software

**JAMES PEACOCK,**  
CEO OF SKU DISTRIBUTION

“Our analysis suggested our efficiencies would increase by 50%. the results, however, were dramatically better. Our receiving process and pick-per-hour speed increased by almost 300%”

# CHRIS JACKSON, PRESIDENT OF SAVANT

Savant WMS is still the only Certified and Customer Validated WMS solution stack in the Acumatica marketplace. We continue to expand our product line adding 3PL with Activity Based Billing, 3PL Customer Portal, Packing and Shipping Manifest modules. Unmatched in the mid-market and our greatest competitive advantage is a unified product, 1 code base, 1 data base, and 1 UI/UX while simultaneously powering WMS, Packing, Shipping and Third Party Logistics (Activity Based Billing).

## FULL FEATURED WAREHOUSE MANAGEMENT SOLUTION DESIGNED TO OPTIMIZE WAREHOUSE PERFORMANCE

### AFFORDABLE SAAS PRICING STRUCTURE

Savant is a cloud based solution with multiple price models to fit your WMS budget.

### SCALABLE SYSTEM WITH AN UPGRADE PATH

ADC evolve into a WMS makes ADC seem like it isn't a WMS.

### PICK ONLY THE ANCILLARY MODULES YOU NEED

While Savant ADC and WMS provide core functionality, our ancillary modules allow you to fine tune your distribution operations by selecting only those modules you need today. Modules can be added as future demands dictate.

### EASY TO INSTALL AND EASY TO USE

Partner with an authorized implementation specialist or do it yourself. Savant provides the documentation and training tools to get you up and running quickly and at a minimal cost.

Validation is a step above certification and Savant is proud to be one of a handful of validated solution providers. Today's distribution and manufacturing companies require tight integrations between all components of their software and hardware platforms. Partner validation insures that the Savant solution stack meets those important requirements.
