

Preconstruction in the Cloud

Your all-in-one solution for lightning-fast takeoff, complete estimating & bid-ready proposals.

Use **STACK** to power a 10x faster and more profitable preconstruction process. Quickly measure digital plans, collaborate with team members and finalize project estimates — all from one, easy-to-use, cloud-based platform.

Plan, Spec & Document Management

Keeping project details & supporting documents organized has never been easier.

Cloud-based Quantity & Material Takeoff

Make project takeoffs 10x faster & empower your team to work anytime, anywhere.

Detailed Cost & Estimating Proposal Generation

Adjust costs, markup, tax, and overhead to create branded proposals with ease.

Real-time Collaboration & Connectivity

Use robust markup, callout, sharing & invitation features to keep your entire team aligned.
