Compliance Module

Compliance Module helps you record information and build reports that regulatory bodies demand from time to time. Keep your facility, employees and products safe to gain trust, loyalty and financial growth. Regardless of the industry that you are in (Food, Pharma, Paints, Chemical), Acu Process Manufacturing helps you be compliant.
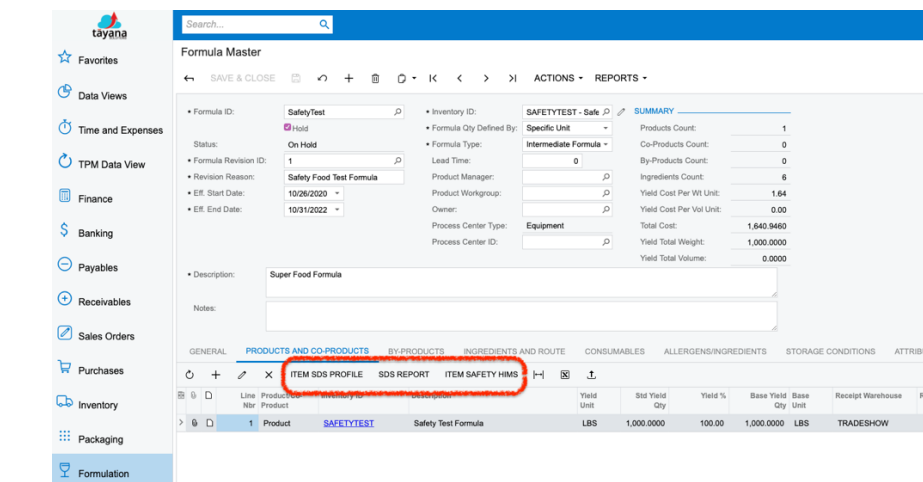

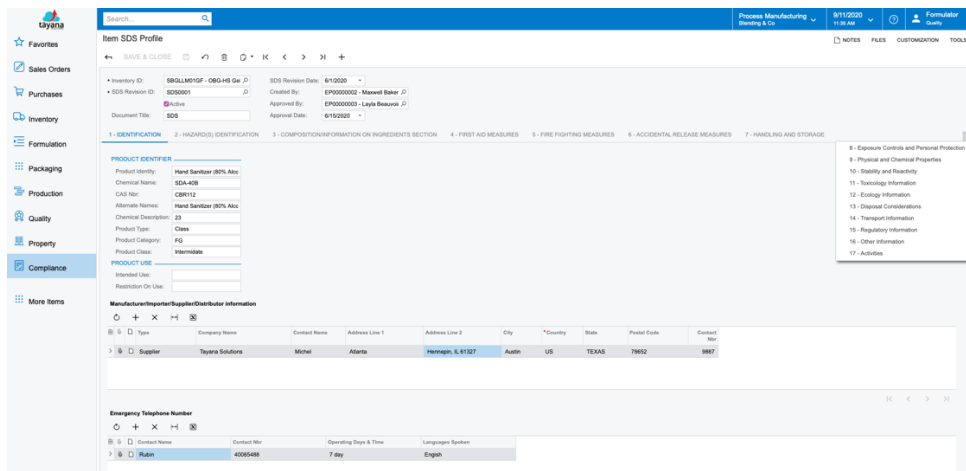

PRACTICAL FEATURES

You can design and print labels to display supplemental information and also to meet FDA requirements.

Ensure safety by maintaining material handling & consumption (HACCP) as per FDA guidelines.

Using APM, maintain SDS (Material Safety Data Sheets) related information and print or share the SDS with your customers.

This module can help you be compliant with OSHA, EPA, DoT, INCI, CFR Part 11 guidelines.

APM team can help generate GHS labelling, HAZMAT Bills of Lading, REACH reporting, SARA Title III reports.

KEY BENEFITS

FLEXIBILITY

- Flexibility to maintain & modify labels from within the system
- Ability to build customized reports to manage dynamic regulatory related reporting

RELIABILITY

- Built in Workflow for seeking approvals at various stages of your processes ensures your data capture is reliable and reportable

INDUSTRY SPECIFIC

- Enable/Disable features that are specific to your industry makes your system look clutter free
- Build regulatory reports based on your industry needs
- Capable of integration with third party systems or regulatory body's systems to exchange information

COLLABORATION

- Exchange emails, schedule meetings from within the system such that record all the activities that went behind your production processes

ONE SYSTEM

- Record everything in one single system helping you access data seamlessly
- Build Analytics easily to monitor the health of your system
- Manage your business at your fingertips

Kindly Note	Not all above mentioned features/reports are pre-built. Based on the client needs, they need be configured

THE ACUMATICA ERP DIFFERENCE

Acumatica delivers a full suite of integrated business management applications unlike any other ERP solution today

STREAMLINE OPERATION
Manage your business more efficiently:
- Automate processes
- Control workflows
- Access the system from anywhere on any device, including mobile
- Promote collaboration with all-inclusive user licensing

ADAPTABLE SOLUTION
Add and Extend:
- Deploy in-house or in a private cloud or public cloud
- Easily configure your solution to fit your needs
- Add capabilities such as CRM or data visualization at any time
- Extend to other solutions and applications beyond ERP

YOUR BUSINESS ACCELERATED
Get a single version of the truth:
- Accelerate business performance and make smarter decisions with automated processes, real-time data collection, financial analyses, and forecasting
- No per user pricing – system scales as your business grows

About Tayana Solutions:

Tayana Solutions provides end-to-end software consulting, ranging from eCommerce, Production, Quality, Regulatory Reporting to Customization. We specialize in Process Manufacturing domain catering to their unique set of demands that is not understood by general manufacturing products. Contact us if you are in search of a compassionate & reasonable service provider to experience the benefits of digital transformation.
