

DOES THIS SOUND FAMILIAR?

- ▶ Calls and texts with drivers wastes time and money.
- ▶ Finding work for our fleet can be challenging.
- ▶ Managing hauling costs in real-time is impossible.
- ▶ Holding haulers accountable is tough without tracking.
- ▶ Staying on top of billing/invoicing and hauler pay is a pain.

3.5M

Loads delivered
with Trux

25

New drivers take
their 1st shift
each day

1.5 hrs

Dispatch savings
per hauler/week

THE OLD WAY

Dispatch and communicate
with haulers via phone/text

Call haulers for status/location
updates

Search for paper load slips at
the end of each day

Manually track hauler hours,
loads, and costs

Manual data entry for billing
and invoicing

▶ THE TRUX WAY

Digitally dispatch and instantly
communicate with haulers

Track haulers in real-time and view
time-stamped routes on completed jobs

Access digital tickets throughout the day
after each load is delivered

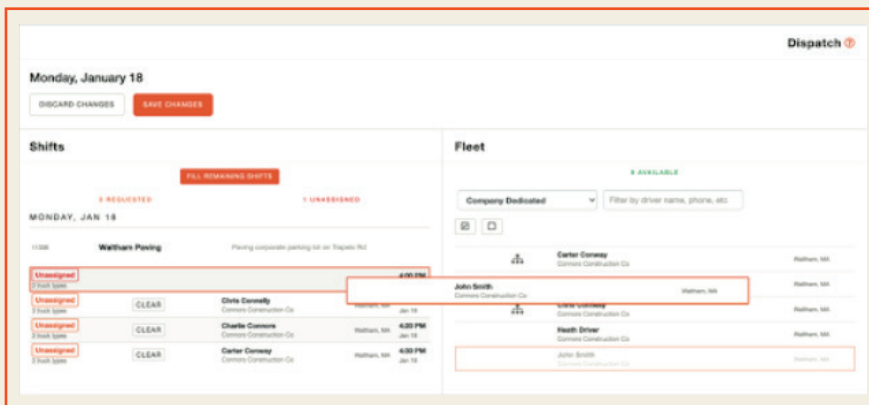

Automatically track hauler hours, loads
and costs as jobs are completed

Bill customers with consolidated invoices
and digital tickets

GET THE CONTROL, VISIBILITY, AND EFFICIENCY YOU NEED TO DISPATCH FASTER, KEEP PROJECTS RUNNING ON TIME AND ON BUDGET, AND SCALE YOUR BUSINESS.

INCREASE DISPATCHING EFFICIENCY

Assign work to internal and 3rd party haulers with easy, drag-and-drop dispatching

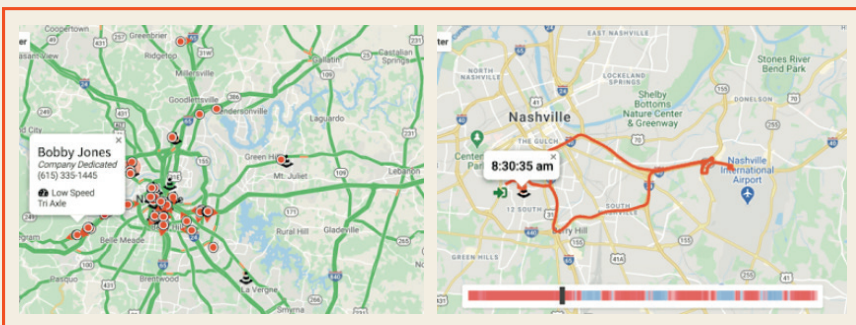

Hauler Dispatching

TOOLS FOR BILLING AND ACCOUNTING

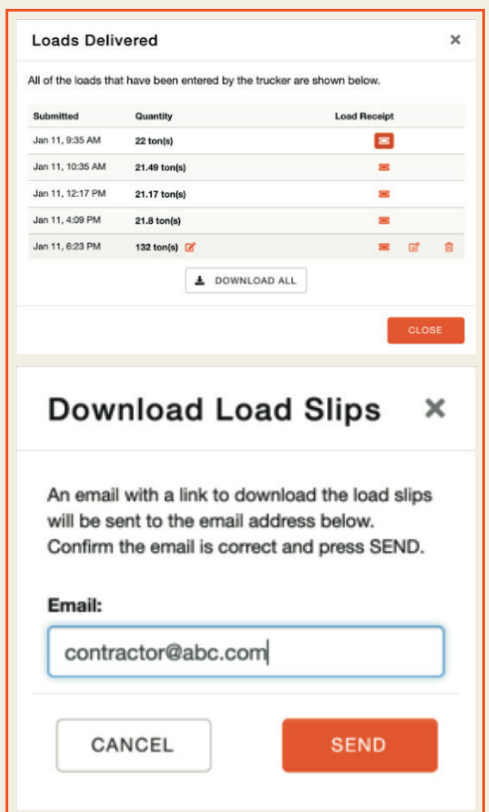

- ▶ Access and download load slips as work is completed throughout the day
- ▶ Export Estimated Earnings and completed shift data to pair with load slips for easy invoicing
- Job Name
- Truck ID and Hauler Name
- Start Date and Time
- Rate, Tons/Loads
- Punch-In/Out Date and Time
- Hours
- Cost Code and Total Cost
- And much more...

HOLD HAULERS ACCOUNTABLE

- ▶ Monitor shift status as haulers are dispatched
- ▶ See active hauler location relative to the jobsite, where and when they punched in/out, and time-stamped route history for completed jobs

Realtime Tracking and Historical Tracking
