

Professional Services Edition

A modern project-centric solution

“Our operation managers are analyzing their profits and losses much better.”

– Gary Gardner, CEO, [Industrial Specialty Services](#)

A Complete Business Management Platform for Professional Services

Transform service delivery with a modern, cloud-native ERP built for professional services. Acumatica Professional Services Edition unifies project management, accounting, and resource planning in one connected platform—empowering teams to deliver on time and on budget. Embedded CRM provides a 360° view of client relationships, from proposals to payments. And with a self-service portal, clients can easily access support, track cases, and stay informed—enhancing satisfaction and transparency at every step.

Its superior mobile capabilities arm employees in the field with time and expense tracking, and real-time project data using role-based dashboards. The user-friendly platform includes flexible billing, including milestone, fixed-price, or time and material billing, coupled with change management, and robust financials with forecasting, payroll, and cash management. Manage the process of recognizing revenue with automation workflows. Dashboard drilldown reports easily identify changes in project scopes, labor, materials, and equipment. Connect to popular applications for a platform that is tailored to your organization's complex and evolving business needs.

Empower Everyone with Role-Based Dashboards, Seamless Collaboration, and Intuitive Navigation

Streamline operations and align teams with a single, connected ERP platform designed for modern business. Empower employees to manage daily tasks and strategic goals with ease—using role-based dashboards, configurable workflows, and embedded AI to boost efficiency, enhance client satisfaction, and fuel long-term growth.

Gain a complete view of all project details.
Track tasks, issues, changes, and cost
projections from one place.
