

Construction Edition

A complete construction lifecycle solution

“With Acumatica, we have
a unified voice, a single
source of truth.”

– Joel Sisto, CEO, [IOC Construction](#)

A Holistic Construction Solution from Bid to Closeout

Simplify operations, reduce costs, and deliver construction projects more profitably. Acumatica Construction Edition empowers small and midsize general contractors, mechanical-electrical-plumbing (MEP) professionals, specialty trades, home builders, and heavy civil contractors with a complete, born-in-the-cloud construction business management solution.

Acumatica gives your business the ability to thrive in a rapidly evolving world. With a mobile-ready platform, embedded AI for actionable insights and automation, and unified financial, operational, and field workflows, Acumatica is a scalable, flexible, and modular platform. Its adaptability ensures seamless support for your growing business needs—whether you’re expanding into prefabrication, service management, or other ventures.

As the next generation of construction professionals steps in, Acumatica supports them with a mobile-first, AI-driven platform to boost efficiency, enhance profitability, and eliminate the frustrations of outdated ERP software.

Empower Everyone with Role-Based Dashboards, Seamless Collaboration, and Intuitive Navigation

Connect on-site field operations with the back office. The combined power of AI and mobile technology, along with configurable workflows and immediate access to project and company data, transforms a smartphone into a construction tech hub in your pocket.

“Acumatica has made my life easier by having the ability to easily build dashboards on whatever metric that I would like to see.”

– Aasha Cunningham, Director of Accounting and Administration, [Phoenix Renovation and Restoration](#)

Construction Financials

Streamline your financial operations with a comprehensive solution that grows with you. Use the Construction 360 dashboard to quickly view project success metrics. Accelerate cash flow with automated billing, and boost profits with budget visibility. Simplify diverse operations with multi-entity and multicurrency capabilities.

Project Management

Gain full project insights with seamless data flow between office and field.

Extend native project management features, such as safety surveys, markups, and job site inspections, with advanced JobPlanner tools designed for mature companies.

Job Cost Accounting

Manage AP workflows, from entering an invoice through approval routing and payments. Seamless billing driven by powerful project costing includes labor, material, equipment, and overhead costs. Code transactions to a single project, multiple projects, or a combination all in a single document. Assess project performance and ensure accurate revenue recognition with WIP reporting.

Change Order Workflows

Take control of change management with automated commitments and change orders to control cost overruns. Link drop-ship workflows to change orders for greater process efficiency. Streamline change management across multiple projects. Support unit rate changes, retainage, and cost-only changes with ease.
